

SKINNY LEGS

Skinny Legs is Slot Table's not-too-distant cousin. Its top is made up of wide solid boards, in walnut, oak, or reclaimed pine, with slender legs of steel, blackened or polished. Its stance is wider than its cousin, but Skinny hides its strength in the same way, its structure seemingly non-existent. 36" wide by 76" long by 29" tall. Available in custom sizes as well. Prices available upon request.
